

BED TIME: Read Genesis 2:19a and think of all the animals and birds it is about. First act like a wild animal. Imagine what that animal sounds and moves like and then act like you imagine it would. Now imagine what a bird in the sky moves and sounds like. Act like a bird! Ask God to help you remember to be thankful that He made you to imagine.

MORNING TIME: Sometimes it's difficult to recognize the unique qualities God has given us. Help your child better understand his or her amazing qualities by highlighting one each week and writing it on their bathroom mirror. As opportunities arise throughout the week, give them examples of the ways you've seen these qualities shine through them, and remind them that God loves watching them make the most of the gifts He designed specifically for them.

GOD TIME: Encourage your kids to have some God time this week using the God Time cards they are given at the end of service. Each day includes a verse(s) to read, a devotion, an activity & a suggested prayer.

DRIVE TIME: While walking to the park or heading to the pool, encourage your child to observe and appreciate all of the nature around them. Ask them about what they see, what they like best, and have them expand upon why in each instance. Take time to point out the things you notice as well and remind them that God made everything!

ASK A KID: If you had a real life job right now, what would it be and why?

ASK A PARENT: How do you use your real life job to do the job God gives us, to take care of His creation?
